Be a part of the preeminent resource throughout the Southeast for growth in the medical device industry. SEMDA is recognized nationally for uniting the industry centers of the region into a cohesive alliance that attracts investment and expansion and retains the region's technology.

SEMDA Annual Conference

As one of the premier regional conferences in the country, we host more than 400 attendees representing almost 200 companies.

Network and Business Development

Along with our annual conference, we partner with local organizations to host quarterly events throughout the region. Our online membership directory is 7,000 strong, through partnerships our total marketing distribution is over 40,000, and our Services Marketplace launches in 2016.

Professional Development

Our educational program includes courses in regulatory, reimbursement, compliance, etc., our Lunch & Learn series and partnerships with leading educational organizations such as Georgia Tech and AdvaMed.

In 2015, we launched our Career Center at careers.semda.net to help you find new talent or take the next step in your career.
